

Meritor Part

Meritor Part - Meritor is a premier international dealer that is proudly built on a one hundred year custom of service and quality. They concentrate on various integrated systems, modules and parts to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in just hiring future focused workers. These top-caliber people could quickly adapt to changing environments and freely demonstrate the level of commitment and performance considered necessary to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their workers various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems used for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the needs of their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group who is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

They have their supplier network which is specifically situated so as to support the growth of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
