

Spreader Bars for Forklift

Spreader Bar for Forklift - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader producer all-around the world. They have been a dedicated producer of spreaders utilized for different applications like the swap bodies, trailers and handling of containers.

Engineering is done in house by way of utilizing all of the latest FEM tools and CAD systems. The ELME company now has more than one hundred twenty five workers. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks across the globe.

The ELME product series offers spreaders utilized for several container and trailer handling operations. Several of their inventory include: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders and a wide variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created over one thousand one hundred fifty spreaders by means of making use of high quality components to ensure dependability and top standards while offering competitive prices. Major characteristics of ELME comprise design simplicity, market feedback and innovative modular spreader concept.
